## Average Monthly Payment (AMP) Plan Application

The Average Monthly Payment plan, or AMP, allows customers the flexibility to better budget their utility expenses. AMP takes current monthly utility usage and averages it with usage of the previous 11 months.

Utility customers must meet the following eligibility requirements to participate in the program:

1. Have a satisfactory payment record with no more than two (2) late payments within the previous twelve (12) month period.
2. Be a resident of their current address for the last twelve (12) billing periods.
3. Have an account balance paid in full upon entering the plan.
4. Agree to maintain a good payment record (no late payments) while participating in the Plan.

If accepted, AMP will begin on the following month's billing cycle. Plan account will accumulate a positive or negative account balance throughout any given period. Because of a rolling average of the current bill and the previous eleven (11) months, bills amounts will fluctuate from month to month.

If more than two (2) payments are received after the due date within a twelve (12) month period, the account will be removed from AMP without notice.

Account Name: \_\_\_\_\_

Account Address: \_\_\_\_\_

I accept the terms of the AMP plan:
